

ADDENDUM No.1

Date: August 31, 2020

To: Prospective Bidders

Subject: Addendum No.1 - GPL-PD-043-2020: Tender for the Supply Equipment.

This Addendum serves to notify prospective bidders of the following clarifications under each respective heading:

1. Hi-Ab Trucks

- a) The lorry boom needs to be metallic.
- b) The Pump for systems required is 16-18 gallons per minute, as well as 3800-4500 psi.
- c) Each truck lifting capacity should be 5 tonnes or more.
- d) Trucks are to be used for transporting and planting poles, transporting and installing transformers at a height approximately 60 feet. The installation of a tool bin on the tray of the vehicle is required.

2. Cherry Picker

- a) The cherry picker must be installed on a van or a pickup.
- b) The load bearing requirement must be at least 300 lbs. or 136 kg to accommodate a technician and equipment.

3. Excavator

- a) The weight should be approximately 14 tonnes.

4. Forklift Truck

- a) The pole grabber would be used to load and offload poles ranging from 25 feet to 60 feet in length.

In the interest of facilitating adequate preparation time for prospective Bidders to respond this Tender; the deadline for submissions and opening of bids has been **extended to Wednesday, September 16, 2020**.

All other conditions remain unchanged.

Submissions must be made in hard copies only.

Strick COVID-19 protocols would be observed during opening of bids.
