

## **GY-G1007: Guyana Utility Scale Solar Photovoltaic Program (GUYSOL)**

### **Individual Consultancy**

#### **Clerk of Works - Electrical (4no.) and Civil (2no.)**

The Government of the Cooperative Republic of Guyana (GCRoG) has earned financing under the Guyana - Norway Partnership Agreement towards a program for the Guyana Utility Scale Solar Photovoltaic Program. The financing earned will be administered in accordance with the Policies of the Inter-American Development Bank (IDB). The GCRoG intends to apply part of the proceeds from the Program towards consulting services to strengthen the Executing Agency's (Guyana Power and Light Inc.) Program Execution Unit.

The general objective of both positions is for qualified and experienced individuals to support the Program Execution Unit, particularly the Electrical Engineer and Civil Engineer with supervision of activities carried out by the Contractor under the contract for Engineering, Procurement and Construction of Five (5) Utility Scale Ground-Mounted Solar Photovoltaic Plants with Battery Energy Storage Systems to be constructed at sites in Berbice (Region 5 & 6) and Essequibo (Region 2).

The individuals should have at least a Diploma in Technology (Electrical/Civil Engineering), or another relevant discipline with a minimum of three (3) years professional experience in engineering. Candidates having experience in planning or implementing renewable energy infrastructure projects, especially those funded by Inter-American Development Bank or other Multilateral Financial Institutions would be considered an asset. The process will be conducted pursuant to Policies for Selection and Contracting of Consultants financed by the Inter-American Development Bank GN-2350-[15].

Interested persons can obtain a detailed copy of the terms of reference by scanning the respective QR code below or through the following links:
