

## **GY-G1007: Guyana Utility Scale Solar Photovoltaic Program (GUYSOL)**

### **Individual Consultancy**

#### **Clerk of Works - Electrical (4no.)**

The Government of the Cooperative Republic of Guyana (GCRoG) has earned financing under the Guyana - Norway Partnership Agreement towards a program for the Guyana Utility Scale Solar Photovoltaic Program. The financing earned will be administered in accordance with the Policies of the Inter-American Development Bank (IDB). The GCRoG intends to apply part of the proceeds from the Program towards consulting services to strengthen the Executing Agency's (Guyana Power and Light Inc.) Program Execution Unit.

The general objective of the position is for qualified and experienced individuals to support the Program Execution Unit, particularly the Electrical Engineer with supervision of electrical, and associated works carried out by the Contractor under the contract for Engineering, Procurement and Construction of Five (5) Utility Scale Ground-Mounted Solar Photovoltaic Plants with Battery Energy Storage Systems at sites in Berbice (Region 5 & 6) and Essequibo (Region 2).

The individuals should have at least a Diploma in Technology (Electrical), or another relevant discipline with a minimum of three (3) years professional experience supervising electrical construction works. Candidates having experience in planning or implementing renewable energy infrastructure projects, especially those funded by Inter-American Development Bank or other Multilateral Financial Institutions would be considered an asset. The selection process will be conducted pursuant to Policies for Selection and Contracting of Consultants financed by the Inter-American Development Bank GN-2350-[15].
