

VACANCY NOTICE

GY-G1007: Guyana Utility Scale Solar Photovoltaic Program (GUYSOL) Individual Consultancy

Electrical Engineer (3no.) and Civil Engineer

The Government of the Cooperative Republic of Guyana (GCRoG) has earned financing under the Guyana - Norway Partnership Agreement towards a program for the Guyana Utility Scale Solar Photovoltaic Program. The financing earned will be administered in accordance with the Policies of the Inter-American Development Bank (IDB). The GCRoG intends to apply part of the proceeds from the Program towards consulting services to strengthen the Executing Agency's (Guyana Power and Light Inc.) Program Coordinating Unit.

The general objective of both positions is for qualified and experienced individuals to support the Program Execution Unit, particularly the Senior Project Engineer/Solar PV Specialist, with supervision of project implementation activities carried out by the Contractor under the contract for Engineering, Procurement and Construction of Eight (8) Utility Scale Ground-Mounted Solar Photovoltaic Plants with Battery Energy Storage Systems to be constructed at eight (8) sites throughout Berbice, Linden and Essequibo.

The individuals should have at least a Bachelor of Science degree in engineering, or another relevant discipline. At least three (3) years' professional experience with proven work experience in engineering and implementation of energy infrastructure projects. Experience in planning or implementing projects funded by Inter-American Development Bank or other Multilateral Financial Institutions would be an asset.

Interested persons can obtain a detailed copy of the terms of reference by scanning the QR code below or through the following links:
